**AGENDA**

**Meeting Focus: “Scaling Up the High Resolution Carbon Monitoring and Modeling Products to the Northeast U.S.: Discussion of Climate Action Plans, Current Carbon Monitoring Strategy, and Carbon Monitoring Needs and Interests for Stakeholders in the States of New York, Massachusetts, and Vermont”**

Welcome, Introductions, and Meeting Goals - *Edil Sepulveda, NASA GSFC* [11:30am-11:35am]

Overview & Science Progress, Updates and Plans for NASA CMS Project: “High Resolution Carbon Monitoring and Modeling: Continued Prototype Development and Deployment to Regional and National Scales” - *George Hurtt, UMD; Jarlath O’Neil-Dunne, UVM; and Andy Lister, USFS* [11:35am-11:50am]

Maryland’s Stakeholder Experience - *Elliott Campbell, MD Department of Natural Resources* [11:50am-11:55am]

Questions for NASA CMS Science Team / Stakeholder feedback, data needs, interests - *All* [11:55am-12:00pm]

Joint Quarterly Presentations: Discussion of Climate Action Plans, Current Carbon Monitoring Strategy, and Carbon Monitoring Needs and Interests for Stakeholders from NY, MA, and VT [12:00-12:45pm]

- “The role of forests in New York State’s climate policy agenda” - Suzanne Hagell, Climate Policy Analyst, Office of Climate Change, *New York State Department of Environmental Conservation*
- “Massachusetts Climate Law and its Related Forest Programs” - Robert O’Connor, Forests and Land Policy Director, and Hong-Hanh Chu, GWSA Implementation Program Manager, *Massachusetts Executive Office of Energy & Environmental Affairs*
- “Vermont climate and carbon monitoring overview” – Bennet Leon, Environmental Analyst, Air Quality and Climate Division, *Vermont Department of Environmental Conservation*

Questions & Discussion: Potential Applications of Carbon Products for the Northeastern U.S. - *All* [12:45-1:00pm]

Next Steps / Closing - *George Hurtt & Edil Sepulveda*
